

COMPLETE
E-COAT
PAINT LINE

LARGE-SCALE INDUSTRIAL SYSTEM

Fully integrated line consists of multiple large-capacity process tanks supported by a full rinse tank sequence and an automated monorail crane system.

Environmental and utility systems are included featuring a large-diameter air scrubbing system with full ductwork, reverse osmosis water purification, paint filtration system, and boiler.

The system is completed by a large-capacity cure oven in/out system, and includes extensive pump and piping infrastructure, electrical and controls, and full safety guarding and access platforms throughout.
